

Hello,

The following details what I've been doing since my **CONTACT 2006 Toronto Photography Festival "Landscapes Revealed"** exhibition and some of what is on the horizon.

I have been invited to participate in the "**MASTERS OF PHOTOGRAPHY INTERNATIONAL CHARITY EXHIBITION**" in Curitiba, Brazil on October 28th, 2006.

Presented by World Photographic Arts, the exhibition will feature selected outstanding works of Black and White Spider Awards and International Color Awards winners and be of special charitable benefit, raising money to build an Activity Centre for APADEH, a children's school in Curitiba, south Brazil.

The exhibition will take place at Clube Curitibano, at a special Charity Gala Dinner during which there will be a live auction of the exhibited works. Among the 1500 guests in attendance at this high profile event will be state and local government officials, corporate heads and national press. The Brazilian TV personality Maria Pia will present the evening's ceremonies and interview guests for her TV and production company.

My work can be seen at the **Leonardo Gallery** in Toronto. If you would like to experience the full impact of the prints, please contact the gallery at 416-924-7296 or email [info@leonardogalleries.com](mailto:info@leonardogalleries.com) for more information.

I spent July and August in Ireland directing second unit for the miniseries "**The Tudors**", a dramatic series about the reign and marriages of King Henry VIII starring Jonathan Rhys Myers as Henry and Sam Neill as Cardinal Wolsey. Additionally, I was able to make time to explore and photograph much of the beautiful country.

I will be photographing in Italy throughout October while relishing in "la dolce vita".

Ciao,  
bret
