THE TUDORS SEASON TWO

This fall I'm heading back to Ireland to do more second unit directing and visual effects supervising for season two of Showtime's "[The Tudors](#)". I will be filling out my Irish black and white landscape portfolio when not on-set.

LEGENDARY ACTOR PETER O'TOOLE JOINS THE CAST OF THE TUDORS

O'Toole Dons Pope Paul III's Robes for the Second Season of the Epic, Critically Acclaimed Series

In the first season finale of THE TUDORS, Henry and Anne's passionate affair has reached a fevered pique and Henry's obsession with making her his queen has grown all-consuming. As Season Two begins, Henry's desires are thwarted by the Church, an obstacle that makes him even more determined to separate Parliament from Church. After Henry (Jonathan Rhys Meyers) secretly marries Anne (Natalie Dormer) and has his marriage to Katherine (Maria Doyle Kennedy) declared invalid, Pope Paul III (O'Toole) moves to excommunicate Henry and the two have an on-going feud with a fall-out that has repercussions in England to this day.

TORONTO GUILD FOR PHOTOGRAPHIC ARTS

I will be giving a presentation to the [Toronto Guild for Photographic Arts](#) next April.

22-April 2008

**Guest Speaker: Bret Culp, fine art photographer:
"The Photographer's Artistic Voice"**

"There is a vitality, a life force, an energy, a quickening, that is translated through you into action, and because there is only one of you in all time, this expression is unique. And if you block it, it will never exist through any other medium and will be lost."

-Martha Graham (1894-1991)

When we are true to our unique artistic voice good things begin to happen.

My presentation will highlight the importance of personal artistic expression in our photography and suggest ways in which we may cultivate it. I will support my points by relating my thoughts, experiences and explorations on the topic and by referencing my photographic artwork.

NEW BODY OF WORK

I am excited to be working on a new body of photographs from the Basilicata region in southern Italy. While I have been focused on black and white photography for the past several years I could not ignore the power of the colours of the area. The following is a sneak peak work in progress.
